

Who We Are

What Data Titans brings to your business is professional services that match, if not exceed, your business needs. Coming from a veteran-owned small business, we understand the challenges and the needs small to medium-sized businesses face daily; your company's network should not be one of them.

Established in 2013 Data Titans is known for our technical expertise, our flexible "grow as you go" solutions, and excellent customer service.

Data Titans takes time to examine and diagnose your preexisting network and configurations, give you real-world solutions, and guide you through the process side-by-side.

Referral Program

Who is eligible for this program?
Anyone. Whoever you are, a current client, business owner, an employee, and you reading this are all eligible for our referral program.

How does it work?

Businesses:

Both parties, the referrer and the referred client, get one month of service free and or a cash bonus of equal value.

Employee/Anyone Else:

You will receive a cash bonus equal to the referred clients Monthly Service Agreement (MSA).

Referred Clients:

If you get referred, on top of a free month of service, we will also include free network turnover, free security software, and free consultation on your current network.
